Description

Photograph, Black and white; Vertical image of an officer standing next to a Curtiss SB2C Helldiver with folded wings on the flight deck. The white object mounted to the wing is the APS-4 surface search radar pod which was commonly used on the SB2C-5 version of the Helldiver. Also notable are the ground attacking rocket mounts seen on the bottom surface of the folded wing. The man has his hands on his hips. He is wearing a shirt with double breast

pockets and rolled up sleeves. His trousers are creased and he is wearing a garrison cap. There is a thick white border around the image.
