## Flight Operations

**Date**  
1968-1970

**Primary Maker**  
Robert Muszynski

**Medium**

### Description

Picture, Motion; Super 8 film with cardboard box that reads "Kodachrome Movie Film // Super 8." No audio. Film is out of focus. Subjects include: flight operations including aircraft of Carrier Air Wing 10 (CVW-10 as noted by AK on tail) taking off and landing such as the Douglas A-4E Skyhawk of VA-106 and A-4Cs of VA-36; aircraft on the flight deck; exterior views of the island; and crewmembers on the flight deck. There is some question as to the identity of the ship, either Intrepid (CVA-11) or Lexington (CVT-16). Lexington was the primary training ship at the time. Identity can not be conclusively determined.
